## Pet of the Month:

This is Sox. He is a 2 year old "Collie Mix". He loves running through the woods, chasing squirrels, and finding sticks. He's very lovable and wants nothing more than to curl up in your lap.

Sox gets along so well with everyone he meets that he makes regular visits to the retirement home to visit his elderly friends. He even dressed up for Halloween and went 'trick-or-treating' with them last year. Sox is

a rescue from a Greenwood shelter and couldn't have been a better addition to the family.

# SUMMER SAFETY TIPS

- 🐾 Heat can kill:

  - 🐾 Provide plenty of cool, clean water.
  - 🐾 Don't exercise your pet in the heat of the day.
  - 🐾 More than one water source is needed in case one gets knocked over.
  - 🐾 Hot pavement can burn your pet's paws.
  - 🐾 Provide lots of shade and water if your pet is outside during the day.
- 🐾 Car and truck safety:

  - 🐾 Don't leave your pet in a car or truck even with the windows open. It can take less than 10 minutes for a car to reach over 120 degrees when the outside temperature is only 80 degrees!
  - 🐾 Pets should not be allowed to stick their heads out windows. Letting them to do this can cause injury to their eyes from flying objects or to their ears from constant flapping in the wind.
  - 🐾 Never leave a pet untethered in the back of a pickup truck. Hundreds of pets are killed every year when they jump out, or are injured in a sudden stop or turn.
  - 🐾 The beds of pickups can get extremely hot during summer.
- 🐾 Safety at the beach or pool:

  - 🐾 Teach your dog where to get out of the pool, or be ready to help him out when he is ready because dogs usually try to get out the same way they got into a pool which is not possible in most pools.
  - 🐾 Swimming is very tiring for dogs, be watchful of when your dog is tiring and call him out of the water for a rest.
